

**1. PROGRAM NAME / PHTO / RLED**

Family Planning Program

**2. PROGRAM / OFFICE DESCRIPTION AND OBJECTIVES**

**2.a Description**

Family Planning is a health intervention that contributes to the reduction of maternal and infant mortality and morbidity. It promotes the health of the family particularly women, men and children.

**2.b Objectives**

To provide and ensure the provision of quality Family Planning services to improve the health status of the community

**3. STATUS OF IMPLEMENTATION / ACCOMPLISHMENT as of 2016**

Partial 2016 Annual Report (only 3rd quarter report in all provinces)

Program / Office Indicators	Target	Accomplishment	
		No.	%
Contraceptive Prevalence Rate	65%	EP- 1,609,892	25.49% as of September with incomplete report specially Batangas Province with 12-municipalities to be monitored
		CU- 410,422	329- Barangay no report and 115 Barangay incomplete report

**4. STRATEGIES AND ACTIVITIES to ACHIEVE TARGETS**

- > Provision of FP Commodities to improve access and reduce Unmet Need for Modern Family Planning
- > Conduct regular Data Quality Check to address poor reporting and recording system.
- > Inclusion of Hospitals in the provision of FP services particularly the Long Acting Reversible Method (LARC) and Long Acting Permanent Method (LAPM)
- > Conduct of Usapan Serye as part of the demand generation for Women of Reproductive Age with Unmet Need for Modern Family Planning
